This rule does have some interesting in and outs.

I am still wondering why 60.537(2) doesn't apply in lieu of 60.8 provisions, "All documentation pertaining to the certification test used to obtain certification, including the full test report and raw data sheets, laboratory technician notes, calculations, the test results for all test runs, and discussions of the appropriateness and validity of all test runs, including runs attempted but not completed."

60.539b exempts sections 60.8 (a), (c), (d), (e), (f) and (g).

I have crow to eat.
